

## **TerminalSense goes live at Freeport Container Ports - Bahamas.**

*16<sup>th</sup> December 2020*

It is with great pleasure that we can announce the completion and Go-Live of phase 1 of the Infolayer TerminalSense project at Freeport Container Port, Bahamas. Completed in 10 weeks, FCP Operations now has access to full actionable data insights, near real time dashboards and management packs that are transforming their processes and will deliver transparency into cross terminal operations which provides performance improvement, cost optimisation and revenue enhancement.

Congratulations and thanks to the dedicated, knowledgeable, and professional team at FCP who ensured a smooth and complete remote delivery of phase 1 which was a success amid the global pandemic.

"B.I. in a Box"

for Ports & Terminals, Shipping & Logistics, Energy, and the Financial Services Sectors.
